JOINT EVENT

12<sup>th</sup>

Biofuels and Bioenergy

&

13th Global Summit and Expo on **Biomass and Bioenergy** 

September 04-06, 2018 | Zurich, Switzerland

J Bioremediat Biodegrad 2018, Volume 9 DOI: 10.4172/2155-6199-C1-015

Novel method for algal biomass dewatering and harvesting

Temesgen Garomand Ramin E Yazdi San Diego State University, USA

Algal biofuel has signi cant potential for reducing the US's dependence on fossil fuels while curbing greenhouse gas emissions. Despite these bene ts, a scalable, sustainable, and commercially viable system has not yet been develope key barriers relate to the cost and energy intensity of algal feedstock production, mainly during biomass harvesting
