

## Understanding parasites and cancer in the United States

This Power Point presentation is based on our work at Parasitology Center, Inc. (PCI), in Scottsdale, Arizona, USA and covers the diagnosis, pathology, relationships with cancer and treatment of human parasitic infections in the United States based on our own patient history and testing. The conceptual thesis and practical observations of extensive damage of parasites to human tissues and the initiation of host defense strategies causing out of control cell divisions leading to metastasis is emphasized.
