Effects of far-infrared and terahertz Onnetsu therapy on rheumatoid arthritis and various cancers

Kazuko Tatsumura

Onnetsu means comfortable heat. Dr Kazuko Onnetsu therapy invented by Dr. Kazuko Tatsumura Hillyer emits from a special ceramic; Precise 8-10 μ of vibration of infrared Sunray, vibration of terahertz and various degrees of heat. When Onnetsu is slid over the skin, healthy areas are comfortable but IF deep tissue is cold, unhealthy or degenerated. Hot spot is detected by the temperature sensation reported from the patient. Dr Kazuko Onnetsu therapy is both a diagnostic and therapeutic. When this hot spot is effectively treated with far-infrared, terahertz and heat, Dr Kazuko Onnetsu therapy, the hot sensation subsides and the disease condition improves. Dr. Kazuko's protocol must be followed.

Dr Kazuko Onnetsu therapy is based on four historical and scientific facts.

1. NASA's finding regarding Far-Infrared vibration from Sun light 8-10 μ only. Also, added is the specific Terahertz vibration: .Healing vibration
2. Traditional Japanese Concept of the significance of Body Temperature; Raising Cold Temperature.

Notes:
