## **Education of student nurses – A light at the end of the tunnel**

### **Bente Jansen**

TAFE Queensland, Australia

In the current environment we have seen many challenges with the impact of COVID-19. How do we as an education facility ensure we meet the guidelines of our governing bodies which monitors and regulates our nursing profession and how can we maintain staff satisfaction with all the challenges encountered working in these environments?

Known practices to assist with minimising the spread of this virus is our hand hygiene and wearing a mask in public spaces.

The personal protective equipment in the health facilities being; mask, gloves, gown, goggles and shield. Fit testing of the mask has been implemented for all staff with student nurses requiring to be tested prior.
