Abstract

This study aims to evaluate the pharmacokinetic properties of Echhgkpg"kp"423 ;/pEqX<"Vjg"Eq/Gxqnwvkqpct{"Rtqvgewkpi" C igpv. The study was conducted on 10 healthy volunteers. The drug was administered orally at a dose of 500 mg. The pharmacokinetic parameters were determined using non-compartmental analysis. The results showed that the drug had a short half-life of approximately 2 hours and a bioavailability of about 70%. The drug was well absorbed and distributed throughout the body. The study concluded that Echhgkpg"kp"423 ;/pEqX<"Vjg"Eq/Gxqnwvkqpct{"Rtqvgewkpi" C igpv has good pharmacokinetic properties and can be used effectively in the treatment of various diseases.
