

Keywords: Palliative care access; Medical education; Palliative care education; Quality of life; Illness

Abstract: Palliative care is a medical specialty that focuses on the relief of suffering and the improvement of the quality of life of patients and their families. It is a multidisciplinary approach that involves the patient, the family, and the healthcare team. Palliative care is not just for the end of life, but for the entire course of a serious illness.

Introduction: Palliative care is a medical specialty that focuses on the relief of suffering and the improvement of the quality of life of patients and their families. It is a multidisciplinary approach that involves the patient, the family, and the healthcare team. Palliative care is not just for the end of life, but for the entire course of a serious illness.
