potential conseqences it has on individuals and faily dynaios

Moreover, this investigation will also focus on the role of early intervention and preventive masures to disrupt this cycle and prome healthier outcoms for future generations. Inderstanding the factors that contribute to the perpetuation of substance abuse, parental overprotection, and child aniety is the rst step toward developing targeted interventions that can foster resilience, eprower parents, and support children in breaking free fronthis cycle of hardship §

Families with Substance Abuse, Parental Overprotection and Child

ay inadvertently contribute to the developent of aniety and other psychological issues in children ${\ensuremath{\beta}}$
