The World Health Organization (WHO) has reported a total of 750,000 cases and 42,000 deaths worldwide. WHO COVID-19 Global Situation Reports (GSRs) are available at <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports>. [12].

As a result, the public has been misled by the media and social media. The National Science Foundation (NSF) has funded a project to study the impact of fake news on the public. The project is led by Professor L. J. Althouse and is titled "The Impact of Fake News on the Public." The project is currently underway and will be completed in 2021.

Conclusion

The World Health Organization (WHO) has reported a total of 750,000 cases and 42,000 deaths worldwide. WHO COVID-19 Global Situation Reports (GSRs) are available at <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports>.

In conclusion, the public has been misled by the media and social media. The National Science Foundation (NSF) has funded a project to study the impact of fake news on the public. The project is led by Professor L. J. Althouse and is titled "The Impact of Fake News on the Public." The project is currently underway and will be completed in 2021.

COVID-19 and Fake News. *Diagn Pathol Open* 5:177.

In addition, the public has been misled by the media and social media. The National Science Foundation (NSF) has funded a project to study the impact of fake news on the public. The project is led by Professor L. J. Althouse and is titled "The Impact of Fake News on the Public." The project is currently underway and will be completed in 2021.

On the other hand, the public has been misled by the media and social media. The National Science Foundation (NSF) has funded a project to study the impact of fake news on the public. The project is led by Professor L. J. Althouse and is titled "The Impact of Fake News on the Public." The project is currently underway and will be completed in 2021.
