

Theme Announcement of 3rd International Conference on Mechanics of Biomaterials and Tissues 2020

Yuncang Li*

RMIT University, Australia

Allied Academies hosted the 2nd International Conference on Biomaterials and Nanomaterials which was held in Vienna, Austria from May 20-21, 2019. Active participation and gracious response were received from the supporting International Journal's Editorial Board Members as well as from the leading researchers, academic scientists, research scholars, students and leaders from the fields of Biomaterials who made this event successful.

The conference highlighted through various sessions on current various research. Biomaterials witnessed coalescence of peerless speakers who enlightened the crowd with their knowledge and discussion on various entangled topics related to the fields of Biomaterials, Tissue Engineering, Materials Science, Nanomaterials, Biomedical Engineering and Bioprinting.

The conference proceedings were carried out through enormous Scientific-sessions and plenary lectures. The conference was commencing with an opening ceremony followed by a series of lectures delivered by both members of the Keynote forum and Honourable Guests.

We sincerely thank the Organizing Committee Members for their kind presence, support, and assistance towards the success of Biomaterials 2019. We are also grateful to thank various company representatives, delegate experts, and other eminent personalities who supported the conference by facilitating active discussion forums.

With the grand success of Biomaterials 2019, we take
