Editorial Note

Journal of Neonatal and Pediatric Medicine (NNP) is an academic Open Access journal that means to distribute generally complete and solid wellspring of data on immense subjects of sustenance that incorporate different parts of neonatal perinatal medication, neonatal serious consideration, neonatal treatment, neonatal medications, neonatal taking care of, neonatal nursing, neonatal diseases in the method of unique exploration and audit articles, just as case reports, short correspondences, discourses, scaled down surveys and making them uninhibitedly accessible online with no limitations or some other memberships to scientists around the world.

Nursing incorporates self-administering and shared thought of individuals, things being what they are, families, social occasions and organizations, cleared out or well and in all settings. Nursing fuses the progression of prosperity, expectation of sickness, and the thought of seriously, disabled and kicking the container people. Backing, progression of an ensured environment, research, premium in shaping prosperity methodology and in calm and prosperity structures the leaders, and tutoring are in like manner key nursing occupations.

Nursing, as a crucial piece of the clinical benefits system, wraps the progression of prosperity, expectation of sickness, and care of genuinely debilitated, mentally wiped out, and hindered people, things being what they are, in all clinical consideration and other neighborhood. Inside this wide scope of clinical consideration, the wonders of explicit concern to specialists are individual, family, and
