

# Biomass Energy Revolution

Tapadyati Mapadyati\*

Department of Cardiology, University of New Zealand, New Zealand

## Abstract

abstract explores the burgeoning significance of biomass in the context of

### Biomass supply chain:

## Keywords:

## Introduction

## Benefits of biomass

### Renewable nature:

### Reduced greenhouse gas emissions:

### Waste utilization:

### Energy security:

## Challenges and considerations

### Land use and competition:

## transformative impact

### Rural development:

### Integration with other renewables:

### Technological innovation:

## Conclusion

## Conflict of Interest
