

Qualitative Content Analysis: Unpacking Textual Data for Insights

Bailey John*

IPN Leibniz Institute for Science and Mathematics Education, Germany

Abstract

transparent, allowing for replicability and consistency.

► Thematic Development

After coding, researchers group related codes into broader themes or categories. This thematic development helps to synthesize the data,

7. Dawidczyk CM (2014) State-of-the-art in design rules for drug delivery platforms: Lessons learned from FDA-approved nanomedicines. J Control Release 187: 13344.
8. Li S (2005) Effect of chloride ion on dissolution of different salt forms of haloperidol, a model basic drug. J Pharm Sci 94: 222431.
9. Yalkowsky SH, Roseman TJ (1981) Solubilization of drugs by cosolvents. Drugs Pharm Sci 12: 91134. Morris KR (1994) An integrated approach to the selection of optimal salt form for a new drug candidate. Int J Pharm 105: 20917.
