02-Nov-2024, Manuscript No. roa-25-159256; 05-Nov-2024, Pre-QC No. roa-25-159256 (PQ); 18-Nov-2024, QC No. roa-25-159256; 25-Nov-2024, Manuscript No. roa-25-159256 (R);

fraction (HFpEF), is a growing global health concern. Diagnosing and monitoring HFpEF has traditionally been challenging, as conventional imaging techniques often fail to reveal the underlying pathophysiology, such as myocardial stiffness. The application of elastography in ultrasound imaging is transforming the way heart failure is diagnosed
