

Castelfranco Veneto, 07/16/2013

Journal Orthopedics & Muscular System is a scientific journal that brings together studies, observations, research in the field of orthopedics from all over the world. The editors of the newspaper are esteemed figures in the world who are concerned in guiding the newspaper to the right directives: scientific observation, review of articles, checking the truthfulness of the articles, selection of items with great cultural and scientific utility.

I strongly recommend this journal to be indexed in PubMed

Best regards

Alessandro Geraci
