To Whom It May Concern:

I am writing this letter to provide my strong recommendation for the Translational Medicine to be indexed in PubMed Central. This unique Open Access journal has become an excellent source of information related to clinical research and practice with many subscribers throughout the world. Indeed, this has been made possible due to the efforts of the Editor in chief and Editorial Board members to ensure that the journal maintains a high professional standing.

In making this recommendation, I am committed to continue to serve on the editorial board of the Translational Medicine. I also give my consent to disclose by the Journal my affiliation and contact information.

I do not have any conflict of interest, which would interfere with this important service for science, medicine and technology communities.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald G. Phinney", is written over a horizontal line. The signature is fluid and cursive.

Donald G. Phinney, PhD
Professor
