Re: Journal of Palliative Care & Supportive Medicine
To Whom It May Concern:

I am a member of the editorial board of the *Journal of Palliative Care & Supportive Medicine*. As a board member, I work to insure that this journal maintains high standards. Over the past year, I can say that the quality of the works submitted is quite high. If the submissions are unfit for publication, we reject them, which occurs quite often. I have tried to maintain a quality of accepted articles that is par with traditional journals.

The *Journal of Palliative Care & Supportive Medicine* is applying for PubMed indexing. Unfortunately, many researchers were not aware of the wonderful articles in the journal being indexed and appreciate your assistance.

Sincerely,

Jack Fu, MD
